## Important Notes

---

- The PC configuration is as provided to EVG, and the PCs are declared as working correctly. EVG is not accountable for eventual discrepancies.
- Each winner has 4 working days to verify the effective conformity of the asset to the specification, and to report any deviation. After these 4 days it will not be possible anymore to request a replacement.
- In case of malfunctioning or discrepancies, EVG will offer the option of a replacement with another PC from the available stock (not necessarily the same model or level): the winner has the right to reject the offer and require a reimbursement for the unit returned. No replacement is foreseen for the monitors.
- In case of replacement or reject, the PC shall be returned in exactly the same conditions in which has been provided: if this is not feasible, no reimbursement will be possible.
- **PCs are delivered without Operating System. This is due to the current ESA agreement with Microsoft.**
